The local Tillamook County Composite Squadron has been around for about 18 years. We are no longer one of the best kept secrets in the county! The squadron accomplished several community service projects in 2025, as well as won national accolades for their NASA Face-to-Face Artemis Challenge! Our educational missions have placed us in several local schools teaching about aerospace, aviation and robotics. As a composite squadron, our cadet program is open to youth from 12 to 18 and our senior (adults) member program is available for anyone who wants to serve the community. One paragraph about your organization's history/work:

Our charity began in 1998 in one room of a building in Wheeler and they were able to donate in 1999 \$1,000.00. Since then we have donated \$1,800,000 to North Tillamook County Charities. In 2004 we expanded and added another store in Rockaway Beach named Hope Chest Too Thrift Shop. The Too showing we were an addition to the first one. In around 2008 the Wheeler store experienced their third flooding, which the landlord would not correct, so a house in Nehalem was rented and it has proved to be a wonderful decision. We have 60 volunteers and are always looking for more as each store needs 24 volunteers a week to cover our shifts, which are approximately 3 ½ hours each. Some of our volunteers go south for the winter and others travel a lot sometimes for a month at a time. They are all wonderful to work with. All in all, we are very fortunate and appreciative to receive so many nice donations from the community. We get many complements on the cleanliness of our stores and merchandise.

Mission Statement: We are an inclusive community of strong, competitive athletes, enriching the health and well-being of our members, promoting the fast-growing sport of dragon boating and protecting the environment we share with the wildlife in our midst.

Vision: We are a non-profit empowering health and fitness of our community through the dynamic sport of dragon boating. We envision a club dedicated to health, fitness, inclusiveness, and the environment, both for our membership and our community.

One paragraph about your organization's history/work:

Dragon boating is an ancient sport, steeped in Chinese culture. Our group has been paddling on the Nehalem River, and racing in several Western states, Canada, and Ireland (1 time!) for 13 years. This is our first year as an independent 501(c)(3) organization based on the north Oregon Coast. Our membership currently spans from Cannon Beach to Netarts, and ages 20's - 70's! In addition to spending time on the water, our Club also volunteers to assist other organizations in the community. We have given time to North Coast Recreation District, Habitat for Humanity, Riverbend Players, and Lower Nehalem Community Trust to name a few. We are always welcoming new members. While currently competing as a women's team, we hope to recruit more men to be able to compete with a mixed team as well. Other future goals are to have a breast cancer survivors team and a youth team for ages 14-19. Our need at this time is to acquire a 20 person dragon boat for our organization. We have made some progress fundraising toward this goal during our first year, and would greatly appreciate community support for this project.

One paragraph about your organization's history/work:

Dragon boating is an ancient sport, steeped in Chinese culture. Our group has been paddling on the Nehalem River, and racing in several Western states, Canada, and Ireland (1 time!) for 13 years. This is our first year as an independent 501(c)(3) organization based on the north Oregon Coast. Our membership currently spans from Cannon Beach to Netarts, and ages 20's - 70's! In addition to spending time on the water, our Club also volunteers to assist other organizations in the community. We have given time to North Coast Recreation District, Habitat for Humanity, Riverbend Players, and Lower Nehalem Community Trust to name a few. We are always welcoming new members. While currently competing as a women's team, we hope to recruit more men to be able to compete with a mixed team as well. Other future goals are to have a breast cancer survivors team and a youth team for ages 14-19. Our need at this time is to acquire a 20 person dragon boat for our organization. We have made some progress fundraising toward this goal during our first year, and would greatly appreciate community support for this project.

Mission Statement: The Salmon SuperHwy is an unprecedented effort to restore access for fish to almost 180 miles of blocked habitat throughout six major salmon and steelhead rivers in the Tillamook and Nestucca watersheds. Completion of these projects will reconnect historic habitat, reduce chronic flooding, improve recreation opportunities, and stimulate the local economy both now and for the future.

One paragraph about your organization's history/work:

The Salmon SuperHwy Partnership is a group of local, state, and federal partners working together reconnect 180 miles of blocked stream habitat by addressing a strategically prioritized list of fish passage barriers. These undersized and failing culverts block fish access, inhibit natural stream processes, cause flooding, and are at risk for catastrophic failure, causing road washouts, closures, and public safety issues. By working together, we are building more resilient habitat and infrastructure that will benefit Tillamook County residents and visitors now and into the future.

In addition to spending time on the water, our Club also volunteers to assist other organizations in the community. We have given time to North Coast Recreation District, Habitat for Humanity, Riverbend Players, and Lower Nehalem Community Trust to name a few. We are always welcoming new members. While currently competing as a women's team, we hope to recruit more men to be able to compete with a mixed team as well. Other future goals are to have a breast cancer survivors team and a youth team for ages 14-19. Our need at this time is to acquire a 20 person dragon boat for our organization. We have made some progress fundraising toward this goal during our first year, and would greatly appreciate community support for this project.

Mission Statement: Our primary mission is to ensure the continued existence of our 115 year-old tradition of dory activity (commercial, sport charter, and private fishing) from Cape Kiwanda: To protect, defend and promote the traditional cultural and economic values of the dory fleet; To protect the usual and customary access to, and use of, the public beach at Cape Kiwanda for all the traditional activities associated with dory vessels; and to maintain and improve all traditional vehicle and pedestrian access and vehicle parking on public lands at Cape Kiwanda; To support safety regulations consistent with traditional dory vessel practices; To actively seek laws and regulations that provide the maximum recreational and commercial fishing opportunities consistent with realistic conservation of the resources; and To establish and support projects and events that promote the traditional, cultural, historic and educational values of the dory fleet.

One paragraph about your organization's history/work:

Due to COVID-19 we had to cancel events like the annual Dory Days and Blessing of the Fleet but were able to continue fishing from Cape Kiwanda, advocating for traditional launching and fishing rights and contributing to our fellow community organizations. Thanks to our steady and increasing membership dues, the PCDA is able to provide nearly \$10,000 annually to other programs and projects in the community and fortunately this year was no different. Additionally, to address community needs around COVID-19, the PCDA was able to provide \$1,000 in funding to the Tillamook County Food Bank in the spring. In early fall the PCDA hosted a community cleanup day which included a beach cleanup of the traditional dory beach adopted through SOLVE, removing dozens of wheelbarrow loads of sand from the curbs, sidewalks, and observation deck at the Cape Kiwanda parking lot, trimming back beach grass as well as weed removal from the area. The group of 20 PCDA supporters then moved to the Kiawanda Community Center to install the Chief Kiawanda sign that we rebuilt in the previous week after it had sustained wind damage and cleaned the gutters on the building.

One paragraph about your organization's history/work:

Dragon boating is an ancient sport, steeped in Chinese culture. Our group has been paddling on the Nehalem River, and racing in several Western states, Canada, and Ireland (1 time!) for 13 years. This is our first year as an independent 501(c)(3) organization based on the north Oregon Coast. Our membership currently spans from Cannon Beach to Netarts, and ages 20's - 70's! In addition to spending time on the water, our Club also volunteers to assist other organizations in the community. We have given time to North Coast Recreation District, Habitat for Humanity, Riverbend Players, and Lower Nehalem Community Trust to name a few. We are always welcoming new members. While currently competing as a women's team, we hope to recruit more men to be able to compete with a mixed team as well. Other future goals are to have a breast cancer survivors team and a youth team for ages 14-19. Our need at this time is to acquire a 20 person dragon boat for our organization. We have made some progress fundraising toward this goal during our first year, and would greatly appreciate community support for this project.

One paragraph about your organization's history/work:

Dragon boating is an ancient sport, steeped in Chinese culture. Our group has been paddling on the Nehalem River, and racing in several Western states, Canada, and Ireland (1 time!) for 13 years. This is our first year as an independent 501(c)(3) organization based on the north Oregon Coast. Our membership currently spans from Cannon Beach to Netarts, and ages 20's - 70's! In addition to spending time on the water, our Club also volunteers to assist other organizations in the community. We have given time to North Coast Recreation District, Habitat for Humanity, Riverbend Players, and Lower Nehalem Community Trust to name a few. We are always welcoming new members. While currently competing as a women's team, we hope to recruit more men to be able to compete with a mixed team as well. Other future goals are to have a breast cancer survivors team and a youth team for ages 14-19. Our need at this time is to acquire a 20 person dragon boat for our organization. We have made some progress fundraising toward this goal during our first year, and would greatly appreciate community support for this project.

Mission Statement:

To maintain ownership and financial responsibility of the Tillamook Senior Citizens Club, Inc., building.
 To promote recreational and social activities for our 55 year old and over Club members.
 To maintain the west end of building for the purpose of preparing and serving "Senior Meals" and the "Meals on Wheels" program.
 To provide a trained medical professional for monthly medical checks and advice.

One paragraph about your organization's history/work:

The Tillamook Senior Center was built in 1938 with \$5,000 prize money earned by Tillamook People selling subscriptions to the Townsend Weekly newspaper. Dr. Francis Townsend was concerned about the plight of Seniors after the Depression. His intent was to serve Seniors in much the same way that President Roosevelt later implemented in the creation of the Social Security Act of 1935.

The Center provides a place Seniors can visit, interact with others, use their minds, and have a healthy and nutritious meal at the Meal Site, (5 days a week). The Meal Site is run by North West Seniors and Disability and is accessed from 4th Street, the westerly 1/3 of the Senior Center Building. When our Seniors are healthy on all levels, the entire community benefits. We are Seniors helping Seniors.

Mission Statement: We are an inclusive community of strong, competitive athletes, enriching the health and well-being of our members, promoting the fast-growing sport of dragon boating and protecting the environment we share with the wildlife in our midst.

Vision: We are a non-profit empowering health and fitness of our community through the dynamic sport of dragon boating. We envision a club dedicated to health, fitness, inclusiveness, and the environment, both for our membership and our community.

One paragraph about your organization's history/work:

Dragon boating is an ancient sport, steeped in Chinese culture. Our group has been paddling on the Nehalem River, and racing in several Western states, Canada, and Ireland (1 time!) for 13 years. This is our first year as an independent 501(c)(3) organization based on the north Oregon Coast. Our membership currently spans from Cannon Beach to Netarts, and ages 20's - 70's! In addition to spending time on the water, our Club also volunteers to assist other organizations in the community. We have given time to North Coast Recreation District, Habitat for Humanity, Riverbend Players, and Lower Nehalem Community Trust to name a few. We are always welcoming new members. While currently competing as a women's team, we hope to recruit more men to be able to compete with a mixed team as well. Other future goals are to have a breast cancer survivors team and a youth team for ages 14-19. Our need at this time is to acquire a 20 person dragon boat for our organization. We have made some progress fundraising toward this goal during our first year, and would greatly appreciate community support for this project.
